

1 Literature Review 1

Search ACM and IEEE journals for an article discussing *TCP/IP*. Recent articles (past two years) are preferred. Summarize the article using the following outline:

1. Problem or issue the article is addressing
2. Proposed solution and/or realized difficulties
3. Conclude with the outcome of the paper

Your summarization should be concise (1 -2 pages). Turn in the summary with a citation to the article and a copy of the article. Do not e-mail your paper. Turn in hardcopy at lecture time with a copy of the article summarizing.

All writing must be your own. Do not extract sentences from the article, i.e., no plagiarism. Please look up the definition of plagiarism if you are unclear on this topic or talk to me for clarification.

2 Due Date: Thursday, March 10th

Late assignments will not be accepted.
